

Security Management System Model VCCD-USB Val Cam Live Camera

OVERVIEW

The VCCD-USB Val Cam Live Camera offers brilliant images that can be printed on PVC cards or adhesive labels. This live-view camera is designed for taking portraits using the Vanderbilt SMS Badging application (included in SMS Software). The VCCD-USB with its high quality resolution and reliability, is one of the most versatile cameras on the market. The camera comes with a high intensity photo flash and zoom lens. The picture is live in the software. It is not necessary to import files or download pictures from the camera. Package comes with a tripod. Also available for use with SMS Guest Pass. Requires a USB port.
